

Primary macrophage culture assays

JM J. Rafael Montenegro-Burke BK Bernard P. Kok ES Enrique Saez GS Gary E. Siuzdak DW Dennis W. Wolan

Updated date: Oct 13, 2021

 An abbreviated version of this protocol was published in Science Signaling in Sep 2021

Metabolomics activity screening of T cell-induced colitis reveals anti-inflammatory metabolites

DOI: [10.1126/scisignal.abf6584](https://doi.org/10.1126/scisignal.abf6584)
